

FIG. 1

FIG. 2A

FIG. 2B

FIG. 2C

The graph shows two curves starting from the origin (0,0). The curve for  $V_{GS} = V_{PP}$  is a straight line with a steeper slope, representing linear operation. The curve for  $V_{GS} = V_{DD}$  has a shallower initial slope and eventually levels off to a constant value, representing saturation.
